

**TALK ON THE FOREST:
EXPLOITATION AND CONTRIBUTION
TO SUSTAINABILITY**

The slide features a green background with a misty forest scene. In the top left corner, the CTFC logo is displayed. The main text is centered in white boxes. The title 'EL BOSCH: aprofitament i contribució a la sostenibilitat' is in bold. Below it, the text 'Erasmus+ Project' is underlined, followed by 'Open Science Schooling: Fostering re-engagement in science learning through lopen science schooling.' and the date '2 octubre 2018'. At the bottom, the speaker's name 'Eduard Busquets Olivé' and affiliation 'Grup Gestió Forestal Sostenible' are listed.

EL BOSCH: aprofitament i contribució a la sostenibilitat

Erasmus+ Project
Open Science Schooling: Fostering re-engagement in science learning through lopen science schooling.

2 octubre 2018

Eduard Busquets Olivé
-
Grup Gestió Forestal Sostenible

This talk was run by an expert on Forest management, a member of the Sustainable Forest Management Group (Grup Gestió forestal Sostenible), Mr. Eduard Busquets OWe were given this talk on how the forest is and should be exploited in order to use it in a sustainable way, which benefits has for our health and for the global climate, how the forest should be preserved, used and run by humans. This was a really interesting talk and we all got important information about this topic. This talk was essential to discover this world and to think about our Erasmus project.
